

RAP 312 Shipping and Returns

[rap](#) [engineering](#) [templates](#) [shipping](#) [forr](#)

From Rovipedia, the Rovisys encyclopedia

Approved

Purpose: The purpose of this procedure is to provide a standard, daily method of shipping or returning equipment and materials from RoviSys.

Accepted Files:

Shipping Request Form (MS Word) - 'Administrative' folder. Reference [RAP 005 Document Templates Policy](#)

GENERAL SHIPPING INSTRUCTIONS

- Fill out a Shipping Request Form completely and include a description of the item(s) in each box, value of each box, and dimensions in inches for each box (L x W x H). Please note that all fields marked in red are required to create a shipping label.
- **Please note that all shipments need a job number associated with it.** (For all shipments that are for ADMIN, HR, IT, etc. jobs, the office location must be added to the job #. Example ADMIN_NC, ADMIN_CA)
- **Insure** high value items against loss. Do not guestimate, this value should be as accurate as possible.
- **Preparing items for shipping:**
 1. The employee or project team requesting the shipment is responsible for packaging the items to be shipped, including palletizing, strapping, and wrapping pallets.
 2. Ship in original cartons if possible.
 3. No prior labels or addresses should be visible on the outside of the box. Black out any visible bar codes / addresses. NOTE: try to avoid tearing the outer paper on the box as this weakens the integrity of the box.
 4. Ensure the box is taped securely with sufficient packaging material inside for safe transit.
 5. Place outgoing package(s) in the designated shipping area and mark with the job/project# so it is clear which boxes are for the shipment.
 6. Notify the Office Assistant when packages are ready for labeling. NOTE: occasionally the shipping label will be emailed as a PDF to the person requesting it, and they will be responsible for applying the label to the package. Use clear label envelopes or otherwise protect the label from potential damage.
 7. **PACKING SLIPS FOR OUTGOING SHIPMENTS:** if the customer or receiver requires a packing slip to be sent with the shipment, the employee sending the item is responsible for creating an accurate packing slip and placing it inside one of the boxes or securing it to the outside of the box in a Packing List pouch.

RETURNS:

- The original purchase order requisitioner/purchaser is responsible for arranging all returns with a vendor. If a shipping label is needed for the return (example: vendor isn't providing a prepaid shipping label to return items) then a shipping form must be completed in full and given to the Office Assistant to obtain a label. All returns should be sent UPS Ground (unless other shipping arrangements are made by the vendor).
- The PM for the project should email Accounting at ap@rovisys.com and reference the original Grandview Purchase Order number, quantity returned, part number and whether a replacement will be sent or not.

CA - Thousand Oaks SHIPPING INSTRUCTIONS:

- Please put shipments in the UPS outgoing shipment shelf when they are ready for pickup.
- Email the completed Shipping Request Form to taran.chhabra@rovisys.com. A shipping label containing the addressee information and the RoviSys return address information will be created for each separate item being shipped. **If a shipment requires a truck (example: anything on a pallet or too large to ship via UPS) see "Dedicated Truck/Freight Shipments" below for details**
- **UPS Ground/Express:** is the preferred ship method. All pickups must be scheduled for each shipment. Any items that need to be shipped should be submitted to Taran Chhabra by Wednesday of each week and she will send you the label by Thursday and schedule the pick for the same day. Outgoing boxes need to be labeled and put on the UPS outgoing shelf, no later than 12:00 Noon on Thursday to get picked up, otherwise they will not go out until the next business day.
- **FedEx Express or FedEx Ground:** ONLY if requested specifically as we do NOT have a regular FedEx pickup. FedEx Express and Ground pickups must be scheduled for each shipment and FedEx Ground cannot be picked up on the same day.
- **Dedicated Truck/Freight shipments:** If no other arrangements have been made with the customer, RoviSys uses an established third-party logistics company to arrange dedicated trucks for pallet shipments. If a shipment requires a truck (example: anything on a pallet, enclosure or too large to ship via UPS) notify the Taran Chhabra AFTER completing a Shipping Form with details of the shipment and any specific delivery instructions for delivery location. Taran Chhabra will get a quote for the shipment and then advise the employee requesting it. If the quote is approved, Taran Chhabra will arrange a truck pickup, create a purchase order for the shipping charges billed to the job, obtain a bill of lading and labels from the truck company, and notify the engineer or project team who requested the shipment. The engineer will attach the labels to the outgoing pallets and 3 copies of the Bill of Lading/Waybill will be printed (1 copy for the driver to sign and leave upon pickup, 1 copy for the driver and 1 copy for the final destination). Make sure to allow sufficient time for arrangement of a truck and delivery time, since each pallet shipment can have many variables involved.

GA - Atlanta SHIPPING INSTRUCTIONS:

- The designated shipping area is located immediately in front of the first cubicle (Roving cubicle D1); items ready for shipment are to be placed in the designated area.
- Email the completed Shipping Request Form to kathleen.hall@rovisys.com **OR** physically hand it to Katie Hall in person. A shipping label containing the addressee information and the RoviSys return address information will be created for each separate item being shipped. **If a shipment requires a truck (example: anything on a pallet or too large to ship via UPS) see "Dedicated Truck/Freight Shipments" below for details**
- **UPS Ground Express:** is the preferred ship method. All pickups must be scheduled for each shipment. Any items that need to go out the same day need to be communicated NO later than 12 Noon that day. Outgoing boxes need to be labeled and on the floor in front of the first cubicle (Roving cubicle D1), no later than 2:30 PM to get picked up, otherwise they will not go out until the next business day. FedEx Express or FedEx Ground: ONLY if requested specifically as we do NOT have a regular FedEx pickup. FedEx Express and Ground pickups must be scheduled for each shipment and FedEx Ground cannot be picked up on the same day.
- **Dedicated Truck/Freight shipments:** If no other arrangements have been made with the customer, RoviSys uses an established third-party logistics company to arrange dedicated trucks for pallet shipments. If a shipment requires a truck (example: anything on a pallet, enclosure or too large to ship via UPS) notify the Office Assistant AFTER completing a Shipping Form with details of the shipment and any specific delivery instructions for delivery location. The Office Assistant will get a quote for the shipment and then advise the employee requesting it. If the quote is approved, the Office Assistant will arrange a truck pickup, create a purchase order for the shipping charges billed to the job, obtain a bill of lading and labels from the truck company, and notify the engineer or project team who requested the shipment. The engineer will attach the

labels to the outgoing pallets and 3 copies of the Bill of Lading/Waybill will be printed (1 copy for the driver to sign and leave upon pickup, 1 copy for the driver and 1 copy for the final destination). Make sure to allow sufficient time for arrangement of a truck and delivery time, since each pallet shipment can have many variables involved.

MA - Southborough SHIPPING INSTRUCTIONS:

- TBD
-

MI - Kalamazoo SHIPPING INSTRUCTIONS:

- TBD
-

NC - Holly Springs SHIPPING INSTRUCTIONS:

- The **North Checkout Dock** area has a designated shipping area near the dock door (marked by yellow tape). This location will provide you with packing material, tape, clear label envelopes, and other pallet type strapping materials. Packages ready to ship are to be placed in this designated area and marked with the job # until the label is created and placed on the package.
- The package must be ready for pick up prior to sending the request for a label. Once the form is completed and all necessary information is filled in, Email the Request Form to cynthia.conway@rovisys.com OR physically hand it to her in person. A shipping label will be created for each separate item/box being shipped and then emailed or printed for you to place on your items to be shipped. **If a shipment requires a truck (example: anything on a pallet or too large to ship via UPS) see "Dedicated Truck/Freight Shipments" below for details**
- Any items required to go out the same day will need to be communicated NO later than 12 Noon that day. Place the label on the outgoing box(s) that need to be labeled and on the floor at the designated pick-up location no later than 2:30 PM to get picked up, otherwise they will not go out until the next business day and must be available for pickup by 9am.
- **FedEx Express or FedEx Ground:** We do NOT have a regular FedEx pickup. FedEx Express and Ground pickups will be scheduled for each shipment. FedEx Ground cannot be picked up on the same day. There is an option to hand deliver your packages for a ground shipment to a FedEx location 3 to 5 minutes from the office. This provides the most economical way to ship and in general a delivery to surrounding states is an overnight or 2-day shipment. Otherwise packages must be in the designated area for pick up the next day after 8am.
- **Dedicated Truck/Freight shipments:** If no other arrangements have been made with the customer, RoviSys uses an established third-party logistics company to arrange dedicated trucks for pallet shipments. If a shipment requires a truck (example: anything on a pallet, enclosure or too large to ship via UPS) notify the Office Assistant (Cyndi) AFTER completing a Shipping Form with details of the shipment and any specific delivery instructions for delivery location. The Office Assistant will get a quote for the shipment and then advise the employee requesting it. If the quote is approved, the Office Assistant will arrange a truck pickup, create a purchase order for the shipping charges billed to the job, obtain a bill of lading and labels from the truck company, and notify the engineer or project team who requested the shipment. The engineer will completely package the items/pallets for shipment, attach the labels to the outgoing pallets, and 3 copies of the Bill of Lading/Waybill will be printed (1 copy for the driver to sign and leave upon pickup, 1 copy for the driver and 1 copy for the final destination). The engineer will also place the packages/pallets in the designated shipping area, ready for pick up. Make sure to allow sufficient time for arrangement of a truck and delivery time, since each pallet shipment can have many variables involved.

OH - Aurora (Danner Dr) SHIPPING INSTRUCTIONS:

- The **North Checkout Dock** area has blank Shipping Request Forms available on a clipboard. The designated shipping area is located by the dock door; items ready for shipment are to be placed on the wooden table in this area.
- Either email the completed Shipping Request Form to **BOTH** kara.frye@rovisys.com **AND** jeanna.kremer@rovisys.com **OR** physically hand it to one of them in person. A shipping label containing the addressee information and the RoviSys return address information will be created for each separate item being shipped. ****If a shipment requires a truck (example: anything on a pallet or too large to ship via UPS) see "Dedicated Truck/Freight Shipments" below for details****
- **UPS Ground/Express:** is the preferred ship method, as we have a daily pickup at 3PM at the rear loading dock. Any items that need to go out the same day need to be communicated NO later than 12 Noon that day. Outgoing boxes need to be labeled and on the floor in front of the dock door, no later than 2:30 PM to get picked up, otherwise they will not go out until the next business day.
- **FedEx Express or FedEx Ground:** ONLY if requested specifically as we do NOT have a regular FedEx pickup. FedEx Express and Ground pickups must be scheduled for each shipment and FedEx Ground cannot be picked up on the same day.
- **Dedicated Truck/Freight shipments:** If no other arrangements have been made with the customer, RoviSys uses an established third-party logistics company to arrange dedicated trucks for pallet shipments. If a shipment requires a truck (example: anything on a pallet, enclosure or too large to ship via UPS) notify the Office Assistant AFTER completing a Shipping Form with details of the shipment and any specific delivery instructions for delivery location. The Office Assistant will get a quote for the shipment and then advise the employee requesting it. If the quote is approved, the Office Assistant will arrange a truck pickup, create a purchase order for the shipping charges billed to the job, obtain a bill of lading and labels from the truck company, and notify the engineer or project team who requested the shipment. The engineer will attach the labels to the outgoing pallets and 3 copies of the Bill of Lading/Waybill will be printed (1 copy for the driver to sign and leave upon pickup, 1 copy for the driver and 1 copy for the final destination). Make sure to allow sufficient time for arrangement of a truck and delivery time, since each pallet shipment can have many variables involved.

TX - Houston SHIPPING INSTRUCTIONS:

- **Blank Shipping Request Forms** are available through Microsoft Word, see above. Email the completed Shipping Request Form to kara.frye@rovisys.com. ****If a shipment requires a truck (example: anything on a pallet or too large to ship via UPS) see "Dedicated Truck/Freight Shipments" below for details****
- If shipping for a specific project, check with the Project Manager about shipping via UPS/FedEx and then expensing to the project.
- There is no package pickup from the Houston office. Packages can be taken to the UPS store to ship at 1029 SH-6 N, Unit 650, Houston, TX 77079.
- **Dedicated Truck/Freight shipments:** If no other arrangements have been made with the customer, the Project Manager will determine a freight provider. If a shipment requires a truck (example: anything on a pallet, enclosure or too large to ship via UPS) complete a Shipping Form with details of the shipment and any specific delivery instructions for delivery location. The engineer will create a purchase order for the shipping charges billed to the job. The engineer will attach labels to the outgoing pallets and 3 copies of the Bill of Lading/Waybill will be printed (1 copy for the driver to sign and leave upon pickup, 1 copy for the driver and 1 copy for the final destination). Make sure to allow sufficient time for arrangement of a truck and delivery time, since each pallet shipment can have many variables involved.
